

## **Salary increase request**

We, employees of German political foundations in Tunis, demand an increase of salaries of 24% in relation with the devaluation of the Tunisian Dinar.

The official inflation rate according to the Central Bank of 5,8 % does not reflect the actual inflation which is much higher.

For example :

- Basic food increase : (10% - 111%) see the annex
- Rent : 21,4% see the annex
- Water : 7.2% see the annex

In addition to that, more increases are to be expected with the deduction of subvention due to the new finance law of 2018 that will affect significantly our cost of life.

We believe that an increase of 24 % of salaries will not affect the budget of the German political foundations since the projects are already budgeted in euro.

Quantity	Article	Price 2016 TND	Price 2017 TND	% of Increase
1	Tomato Paste (SICAM)	2.500	2.750	10.0%
1	Harissa (Capbon)	1.450	1.900	31.0%
